

## Harold K. Andersen

4300, 888 - 3 Street SW, Calgary, AB T2P 5C5, Canada

Direct: (403) 266-9063 Fax: (403) 266-9034 [handersen@stikeman.com](mailto:handersen@stikeman.com)

### Law Practice

Harry Andersen is a partner in Stikeman Elliott's Commercial Energy Group in Calgary whose practice focuses on significant transactional and advisory engagements. Mr. Andersen has extensive experience in major merger and acquisition transactions, project development, joint ventures, financings, reorganizations and restructurings. He has considerable experience in most aspects of the energy industry, including in respect of petroleum, natural gas and other product pipelines and related storage and terminalling facilities, natural gas storage, processing and other upstream and midstream facilities, traditional and wind power projects and greenhouse gas credit and related matters.

A significant portion of Mr. Andersen's practice also involves advising on energy trading and derivatives matters, including exchange traded products, electronic trading platforms, credit support arrangements and aggregator and wholesale arrangements.

Mr. Anderson is taking a leading role in the firm's Emissions Trading and Climate Change Group's activities and represents a diverse range of clients in this practice area including banks, financial institutions, investment dealers, corporations, private funds, regulatory bodies and exchanges, among others.

### Professional Activities

Mr. Andersen is a member of the Law Society of Alberta, the Canadian Bar Association, as well as the Inter-Pacific Bar Association.

### Representative Work

Mr. Andersen has recently represented:

- PetroChina Company Limited in its acquisition of a 60% working interest in Athabasca Oil Sands Corp.'s MacKay River and Dover oil sands projects for \$1.9 billion.
- A large pipeline entity in its construction and transportation arrangements in respect to a significant diluted bitumen pipeline.
- A large midstream entity in its transportation arrangements in respect to a significant heavy oil pipeline and a significant diluent pipeline.
- Numerous industry participants in connection with their marketing and downstream arrangements.

- A large multi-national entity in connection with its shale gas acquisition, development and joint venture arrangements.
